

2nd European Conference on Crashworthiness of Composite Structures **ECCCS 2**

14-16th November 2022,

ISAE-SUPAERO, Institut Clément Ader, Toulouse (France)

CONFERENCE GOAL

The ECCCS-2 conference aims to promote the dissemination and exchange of scientific information on the crashworthiness of composite structures. It provides an excellent forum for combining academic research and industrial works to examine crashworthiness of composite structures, as experimentally, as numerically in a wide range of domains such as aeronautics, space, automotive, sport...

Please feel free to disseminate the pdf version of the call for participation.

Topics of interest include, but are not limited to:

- ◆ Damage Mechanics
- ◆ Dynamics
- ◆ Experimental Methods
- ◆ Fatigue
- ◆ Fracture Mechanics
- ◆ Impact
- ◆ Novel Numerical Methods
- ◆ Micro-mechanics
- ◆ Model Identification
- ◆ Multi-scale Modelling
- ◆ Multifunctional Materials
- ◆ Novel Materials
- ◆ Optimisation
- ◆ Laminated and Textile Composites
- ◆ Probabilistic Methods
- ◆ Progressive Failure Analysis
- ◆ Reduced Order Models
- ◆ Virtual Testing

KEY-DATES

- ◆ Abstract submission & registration opens *February 15, 2022*
- ◆ Abstract submission deadline *June 30, 2022*
- ◆ Acceptance notification *July 31, 2022*
- ◆ Early bird registration fee payment deadline ... *September 30, 2022*
- ◆ Late registration fee payment deadline *October 31, 2022*
- ◆ ECCCS-2 conference *November 14-16, 2022*

PARTICIPATION

Authors are invited to submit an abstract of maximum 500 words. Abstracts will be reviewed by the program committee and may be accepted for oral or poster presentation. Online abstracts compilation will be published as open access on OATAO (Open Archive Toulouse Archive Ouverte).

Abstract submission is optional: academic, industrial, and students participants can attend the conference even without presentation or poster.
