JISFA3#1 - Main Gearbox noise in helicopter cabins and dedicated noise control treatments

mercredi 12 juillet 2023 10:40 (20)

The presentation will introduce Main Gear box noise generation mechanism and transfer path to helicopter cabins.

From this introduction, various noise control solutions dedicated to this typical issue in helicopter cabins will be presented, providing an overview of typical treatments used to improve comfort of passengers.

Presenter(s) : JULIEN CAILLET (ETGV, Airbus Helicopters)

Classification par session : JISFA 3 / Aircraft Interior Noise
